

V1C

Virtual first care (V1C) is medical care for individuals or a community accessed through digital interactions where possible, guided by a clinician, and integrated into a person's everyday life.

The ability to **initiate care from anywhere at any time** through telecommunication and digital technologies

Intentional selection of the care setting matched to a person's **clinical needs** and **preferences**, with some aspects safely and effectively delivered virtually, and others necessitating in-person care
